

AMTA Symposium Student Travel Scholarship

Sponsored by the Antenna Measurement Techniques Association (AMTA)

Awardee receives a complimentary registration and reimbursement of travel expenses (round trip airfare, local transportation and accommodations) of up to \$2,000 USD, for **The 2017 AMTA Symposium** October 15–20 in Atlanta, Georgia

- Open worldwide to undergraduate juniors and seniors interested in learning more about antennas, antenna measurement techniques, and related electromagnetic applications
- Applicant must be able to attend the AMTA 2017 symposium.
- A mentor will be assigned to facilitate the student's participation in the conference

To apply, students must submit:

- An essay about his/her interest in AMTA, antennas, radar, and/or the electromagnetic-related field, giving background and plans for the future.
- A resume with course/grade listings
- A letter of recommendation from the student's advisor or faculty member, or an AMTA Senior Member or Fellow who is not a sitting Board Member or a member of the scholarship selection committee.

Submittal deadline:	May 5, 2017 (Midnight Eastern time)
Award announcement:	June 7, 2017
Symposium:	October 15–20, 2017, Atlanta, GA

See www.amta2017.org for complete details or contact the Scholarship Chairman at scholarship@amta.org

The **Antenna Measurement Techniques Association (AMTA)** is an incorporated, non-profit professional organization dedicated to the advancement and education of antenna measurements. Our members come from a variety of backgrounds, including industry, government, and educational institutions from around the world. The AMTA's primary focus is to provide a forum that facilitates a technical exchange for the purpose of

advancing antenna and scattering measurements. This is achieved through a variety of sponsored activities, which includes an annual one-week symposium and periodic 1-day regional events. The annual symposium revolves around a technical program and vendor exhibition, and attracts more than 400 attendees and 40 exhibitors from around the world. This week long event showcases the latest techniques, innovations, and offerings from the industry leaders. One of the highlights of the symposium is Student Day, where AMTA plays host to engineering students from local academic institutions. This program provides students with an opportunity to interact with engineers and mentors from various different disciplines, as well as potential future career opportunities.

This year's symposium is being held at the Grand Hyatt Atlanta in Buckhead, located on Peachtree Street in the heart of Atlanta's most exclusive neighborhood, during the week of October 15–20, 2017, and is being hosted by NSI-MI, an industry leader in antenna measurement solutions. It is a short taxi or MARTA ride to Atlanta's popular destinations, including Midtown, High Museum of Art, LEGOLAND, and Chastain Park Amphitheatre. The Georgia World Congress Center, Georgia Aquarium, World of Coca-Cola, and College Football Hall of Fame are minutes away.
